Measuring and Ordering Information

Complete order information section below using steps 1 through 4.

STEP 1

Series Number: Select the awning Series number that's right for you: *Series 4300 with Support Arms* or *Series 4700 with Sides*.

STEP 2

Awning Model Numbers 6 through 9: Measure window height (A) use chart to determine height model number. Casement awnings require a minimum of 6" above window for mounting. Windows opening more than 18" will require additional mounting space.

STEP 3

Awning Width: If mounting on casing, measure outside width of window casing (B). For wall mount, select any desired width, allow 1" on each side for mounting hardware. Arms cannot be mounted on shutters. Custom widths up to 120" in 1-inch increments.

STEP 4

Color/Pattern Choice: Select the color(s) and pattern that best complements your home. All canopy framework is in bronze finish. Both fabric number and fabric name are necessary for order processing.
